### UC Davis Medical Center Sacramento, CA

#### **Hand Consult/ED Surgical Services Physician Assistant** Salary or Pay Range: \$77.29 - \$101.99 Hourly

Provide daily support of the Hand Consult/ED service and other surgical services as needed. Manage assigned patients, consults, and procedures independently. Work collaboratively with physician colleagues in the division of labor to ensure timely consults and admissions, including orders, from the ED. Perform procedures within scope of practice and standardized procedures.

To provide independent advanced practice provider clinical expertise to patients and their families on an on-going basis. This includes the management of chronic stable medical conditions, routine care, acute or critical care, and medical and specialty protocols (e.g. chemotherapy) as defined by standardized procedures for your specific department. This may include non-invasive or invasive procedures, fracture reduction and splinting, surgical procedures, including hand, upper extremity and wound-related conditions (e.g. hand infection, nerve laceration, and traumatic or chronic wound). Patient management decisions will be independent where appropriate after assessment of the patient and interdependent with consultation with an attending or other member of the team. PAs are expected to act as an expert resource person for health care providers including nurses, residents and other ancillary staff.

Provides direct patient care to a diversified patient population. Applies knowledge, experience, and judgment to determine the importance of a situation, set priorities, and use abstract thought to evaluate clinical situations. Participates in patient and staff education. Demonstrates leadership skills. Demonstrates accountability for own practices as defined by the California Physician assistant board.

## Job Opportunity

### Physician Assistant Needed in Burbank

Dr. Jonathan Gelber, an Orthopedic Sports Surgeon in Burbank is looking for a physician assistant (PA) to primarily assist in surgeries and gradually see patients in the office. As we are a new practice, the PA would bill directly for a surgical assistant fee with our biller as the primary means of compensation initially until the surgical volume becomes high enough for a salaried position.
