

Narcotic (Pain) Prescription Policy Agreement

Our doctors prescribe Narcotic Medications only in cases of acute injury and after surgery for a period of not more than 6 weeks. If you require long term pain control, you will be referred to your primary care physicians or to a pain management specialist.

The office requires 48 hours to process narcotic prescription refills. Please contact us or your pharmacy so you will not run out of medication while waiting for your prescription to be processed. Prescriptions will only be refilled between 8:30 AM- 4:30 PM, Monday through Friday.

I have read and I understand the above Narcotic (Pain) Prescription Policy and I agree to abide by its terms.
